

Americo Manufacturing Company, Inc. – Matting Division 200 Cook Street, Cartersville, GA 30120

Americo expands its floor matting division with the purchase of a 152,000 sq. ft. facility in Cartersville, GA.

Americo Manufacturing Company, a world leading manufacturer of floor maintenance pads and commercial floor matting, headquartered in Acworth, Georgia, has announced the acquisition of a 152,000 square foot facility in Cartersville, Georgia. This new facility will house Americo’s manufacturing and sales office for its expanding floor matting division. Americo provides a wide range of floor matting products for its commercial customers including: indoor and outdoor scrapper mats, olefin carpet mats, matting made from recycled fibers, kitchen matting and anti-fatigue matting.

Also housed in this new building will be Americo’s PromoMatting division which offers imprinted matting including: flocked mats, nylon dye mats, die sublimation matting and embossed matting. Most of these custom products are sold through the promotional products industry. David Rones, Vice President of Americo’s Matting Division says: “This new space will allow Americo to grow its matting division, continuing to provide our customers with superior products and service”.
